---

### Learning outcomes

After studying this module, you should be able to:

- describe what evidence planning is and when you would use it
- understand the Evidence Planning Tool and its usefulness for constructing an evidence base for the impact of a project, organisation or business
- explain the difference between implicit and explicit assumptions
- use evidence planning to identify your mistakes, and what you want to retain and change

### Completed study

The learner has completed the following:

- Evidence Planning
